

ALINA HAMBARYAN

Senior iOS Engineer

Stockholm, Sweden alina@ahstudio.one linkedin.com/in/ahambaryan github.com/alinaios [Download PDF](#)

SUMMARY

Senior iOS engineer with 15+ years of hands-on mobile development experience and nearly 20 years in tech. I have contributed to 50+ iOS applications across startups, scale-ups, and larger product organizations, including Spotify, Blocket, EasyPark, Doktor.se, and FDJ United.

My work lives where engineering, product, and design meet. I care about clean architecture, modern iOS development, and code that can grow gracefully with a product over time. Alongside implementation, I often help teams create more clarity through technical discussions, modularization, code reviews, mentoring, and close cross-functional collaboration.

EXPERIENCE

Senior iOS Developer

[FDJ United](#)

Dec 2025 - Present

- Building scalable Swift features with modern concurrency and clean technical design.
- Shipping maintainable solutions through strong product and engineering collaboration.

Senior iOS Developer

[Mendi.io](#)

Jul 2024 - Dec 2025

- Developed and maintained the Mendi iOS app using SwiftUI with product and design.
- Refactored for stronger modularity, performance, test coverage, and maintainability.

Senior iOS Developer

[Qbtech](#)

Apr 2023 - Apr 2024

- Improved customer-facing iOS experiences, app infrastructure, and release quality.
- Strengthened security practices and cross-functional technical quality.

iOS Consultant

[Doktor.se](#)

Jun 2021 - Nov 2022

- Built SwiftUI and Combine features for a white-labeled healthcare application.
- Facilitated technical alignment between engineering and business priorities.

iOS Consultant

[Spotify](#)

Jan 2020 - Sep 2020

- Supported a framework integration initiative touching around 40 teams.

STRENGTHS

Modern iOS craft

SwiftUI, UIKit, Objective-C, and long-term maintainability.

Architecture and refactoring

Modularization, modernization, and cleaner product foundations.

Product collaboration

Close work with design and product to shape elegant features.

Technical guidance

Code reviews, mentoring, and calm engineering discussions.
